TDM <u>__</u>	TIB <u>__</u>	USC <u>_X_</u>				

General Updates:

- ❖ OFF Client User Report follow-up on August 2017 Agenda Item (Martha Bryson/John Maye):
 - IBC has developed an OFF Client User Access report that will provide the capability for clients to run this report from OFF as a Concurrent Request.
 - After successful testing and deployment of the OFF Client User Access report into OFF Production, it will be available to the Customer Agency Data Custodians and their POCs who are interested. An email will be sent by Martha Bryson to the Data Custodians advising of availability. Please submit an access request form requesting 'IBC Client User Inquiry' responsibility for anyone authorized to run this report.
 - Currently, customer agency OFF Security Points of Contact (SPOC) have OFF licenses to cover the addition of this new Inquiry user responsibility to your OFF user profile.
 - **Scheduled to go into Production the week of December 21st.**
 - **PSA asked who would be given access. Martha replied that access would be given only to specific people that the agency wants to have access. Use the IBC Client Inquiry form to request access.**
- ❖ Clients, please provide your Fiscal Year-End Lessons Learned to Vincent Montez.
 - **No questions asked.**
- ❖ An IBC/FMD G-Invoicing Implementation update will be provided to Customer Agency G-Invoicing POCs by COB Friday, November 22, 2019.
 - **No questions asked.**
- ❖ **Additional question from CSP; Will UAT deadline be extended? POC for that is Angie Smith.**
